Training Rates

All services include a free up to 1 hr consultation to confirm fit then define scope and timeline. Work will only commence after a signed agreement is in place.

Training Services

Length	Cost
Full Day Session	$200/attendee, $160 after first 20 attendees
Half Day	$100/attendee, $80 after first 20 attendees
Two Hour Session	$60/attendee, $40 after first 20 attendees

Training services are the most variable of the services I offer, since it is highly dependent on the training content, the size of your team or organization, number and length of trainings, and training format.

The above estimates are for customized training sessions on a topic that I have high familiarity with. If you have a custom software or process, I will need to add time to familiarize myself and develop custom training materials.

All training sessions will include a slide deck for attendees to keep for reference.

Add-On Options

Training Guide (outside included training slide deck) - $2,000/10 pgs
Training Video - $500 per 3-5 min video
1:1 Training - $100-$200/hr, varies by topic
